“POSIglaze is the  
**MOST FORGIVING**  
balustrade system that  
I’ve used”

## BASE MOUNT

The most popular fixing choice is a base-mounted channel, fixed to your concrete or steel substrate through drill holes in the base of the channel. Available in both black brushed and silver brushed finishes.

SECTION D-D  
Base Mount

# "POSIglaze is **EXTREMELY VERSATILE** and installer-friendly"

**Fast & Easy to Install & Adjust**

**Appropriate for Domestic & Commercial**

**Accredited to 1.50kN to BS 6180:2011**

**Can be used with a wide range of glass types**

**Lightweight & Strong**

**Suitable for use on uneven surfaces**

Side Mount

## **SIDE MOUNT**

For when your balustrade needs to be side fixed, the side-mounted channel has drill holes in the side. Available in a natural anodised finish with silver brushed cladding.

# TECHNICAL SPECIFICATION

The table below shows the line loading that POSglaze is certified to achieve.

These tests have been conducted in accordance with BS6180:2011 to certify that POSglaze meets the force loading requirement under this British standard for a range of glass height and thickness configurations.

	Glass Type >	12mm Toughened Glass		15mm Toughened Glass		19mm Toughened Glass		21.5mm SentryGlas		
		1100	1200	1100	1200	1100	1200	1100	1200
